

POLITICAL DIVORCE AGREEMENT—

WRITTEN BY YOUNG COLLEGE STUDENT *and*
modified by an Anonymous Constitutionalist

Dear American sheeple; liberals, leftists, greenies, social progressives, socialists, Marxists and Democrat supporters, conservatives, elitists, corporatists and Republican supporters, et al. We have stuck together since the early 1800's. We even gave the illusion of an amiable separation in 1825 and gladly took on the mistress of Corporations in the early 1900's, all for the sake of an agenda, future generations and a pretense of wanting the same thing.

The two ideological sides of America and the methods of achieving the goal of a Federal Dictatorship cannot and will not ever agree on what is Constitutional for all of us, so let's just end this on friendly terms. We can smile and chalk it up to irreconcilable differences and go our own way.

Here is our separation agreement:

Our two groups can equitably divide up the country by landmass each taking a similar portion.

That will be the difficult part, because one half will have to be divided again to account for the different tastes of the conjoined

twins of Democrat and Republican, who will have to share the mistress of corporatism.

But I am sure the twins and our two sides can come to a friendly agreement. After that, it should be relatively easy!

Our respective representatives can effortlessly divide other assets since both of our sides and even the conjoined twins have such distinct and disparate tastes.

You can keep taxation as it is, we don't like unrepresented taxes that go everywhere but where they should, so you can keep them. We will use a flat tax, with pay as you go additions and the 'necessity to life' items (air, food, water, protection from the

elements) will have no taxes on them at all. I am sure the twins and their different taxation methods can find a way to alter the taxation policies effectively for your needs.

You are welcome to the liberal and corporate judges, the ACLU, fake elections, mass media propaganda and 'money talks' persona. We will take individual and corporate responsibility, freedom of choice (within the constraints of the Golden Rule) and all who wish to work at the opportunities offered.

Since one twin hates guns and wars and the other loves them to a fault; we'll take the county sheriffs, NRA, the military and start our own State Guards. You can have law enforcement, shysters, puppet judges,

bought and paid for government officials and National Guard.

You can keep the consolidated energy and food distribution models. One twin can have the fossil fuel and nuclear industry plants and mines and the other twin can have all the alternative sources. We'll take the new methodology of distributed creation of energy and food, from all sources, with credits for conservation and surcharges for corporations that pass the cost of 'cleaner', less distributed products to the consumer.

You can keep all the mass media talking heads, miss information and sensationalism. (You are, however, responsible for finding a vehicle big enough to move all of them.) We'll take all the

‘boring’ factual media, so we can make up our own minds.

You can keep greedy corporations, pharmaceutical and greenwashing companies, Wal-Mart, Wall Street, unlabeled food items, Big Pharma, AgriBusiness, corporate enslavement and all the ‘projection budgeting’ entities et al. We’ll take free enterprise, the ‘breakeven budgeting’ corporations and un-manipulated markets and government officials.

You can have your beloved excuse making, enslaved and trapped welfare dwellers, food stamps, homeless, homeboys, druggies, bribers, forked tongued and two-faced ‘leaders’ and illegal aliens. We’ll take

the honest, hard workers and people who wish to be citizens and leaders in a Constitutional America of independent sovereign states under a 'referee' central government. Since everyone needs help once in awhile, we will gladly help them, but never, ever trap or enslave them.

You can keep and pay for any language you wish and we will use English with no government (taxpayer) funds for bilingualism except in the schooling of people actively becoming citizens.

You can keep acting as if health care and other things are in the Constitution and we'll accept that they are not. We will not withhold health care from those that are having a hard time financially; however we

will limit any options to the standard offered at that time. Anyone who is not a citizen will not be turned away, however their bill will be sent to their respective country of origin.

You can continue to give foreigners the ability to commit crimes on our soil and we will charge them with the crimes, charge their country of origin for the cost of those crimes and imprison them as per our laws.

You can keep all the greedy, money worshiping individuals, corporations and government 'officials' and we will initiate a responsible entrepreneur environment where the employees that perform the duties that provide the primary product or service are awarded a minimum of 50% of

all profits the corporation makes;
independent and self-reliant attitudes of all
citizens and community responsibility.

You can keep finding ways to by-pass the
Constitution and we will enforce
Constitutional Law that utilizes the
meanings of words and phrases, in the
century in which the Constitution was
written.

You can have all the peaceniks, war
protesters and mongers, nations and or
people's that threaten us. When our allies
or our way of life are under assault, we'll
help provide them security and we'll retain
the right to invade and hammer any people
or places that threaten us.

You can keep the bleeding heart mentality, scientology, humanism, political correctness, the world governance of the UN, the un-attainable Utopia and submissive US 'government'.

We'll keep our 'every human is equal' and accept the differences of individuals, the freedom of choice, world citizenship and separation of State, Church, Corporations and Political Parties. We will bow to no one, except simultaneously.

You can keep trying to pay and do everything for everyone, under every circumstance, ALL the time and we'll keep giving citizens the *opportunity* and freedom

of choice to do as they please within the constraints of the Golden Rule, to be responsible for themselves and to pay their own way.

You can keep all the 'ostrich head burying' and we will be free to look for true, safe alternatives to ALL our dwindling resources without dictating to others, assigning certain entities the riches or robbing Peter to pay Paul.

You can continue to dictate, enslave and 'uniformize' your citizens and corporations. We will offer freedom of choice (within the constraints of the Golden Rule), individuality, corporation responsibility for themselves and a '3 strikes you're out' criminal system that offers only the

necessities to life prisons (air, food, water and protection from the elements).

You can continue with the current federal dictatorship that you seem to love so much and we will return to a government of true representation *of the people, by the people, for the people*; that is free of the puppet master (Democrat & Republican conjoined twins) political parties and the corporate mistress; Where merit is the requirement for an elected or appointed government position and not cheating, riches and control.

We'll keep "The Battle Hymn of the Republic" and "The National Anthem."

I'm sure you'll be happy to substitute "Imagine", "I'd Like to Teach the World to Sing", "Kum Ba Ya", "We Are the World" or "Iron Man".

We'll practice free enterprise economics without any 'house of cards' foundation of bail outs, projection budgeting, planned obsolescence or administrative riches and you can continue to give trickle up poverty or trickle-down economics with projection budgeting and employee enslavement your best shot.

Since it so often offends you, we'll keep our history, our name and our flag.

Would you agree to this? If so, please pass it along to other like-minded Constitutional patriots and if you do not agree, just hit delete. In the spirit of friendly parting, I'll bet you might think about which one of us will need whose help in 15 years.

Sincerely,

John J. Wall, Law Student and an American
